

E. TARUN

Computer Science Engineering Student | Digital Business & Platform Development

Hyderabad, Telangana +91 9121919410 eppetarun@gmail.com

PROFILE

Motivated B.Tech Computer Science and Engineering student with a strong analytical mindset and a passion for digital business, user experience, and marketing technology. Highly fluent in English with a proven ability to communicate effectively, understand complex training documentation, and execute strategic objectives. Combines technical proficiency in web platform architecture with hands-on project management experience to bridge the gap between digital solutions and business growth. Fully proficient in Google Workspace applications to drive collaborative productivity.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering <i>JNTUH, Hyderabad, Telangana</i>	2023 – 2027
Intermediate <i>J.S. Junior College</i>	2020 – 2022
SSC <i>SVBV School</i>	2020

DIGITAL BUSINESS & PLATFORM PROJECTS

AgriPath AI

- Engineered a digital agriculture platform with market tracking and resource guidance tools.
- Designed end-to-end user journeys to strengthen engagement and platform usability.

Smart Canteen

- Built an online ordering platform featuring intuitive UX and streamlined checkout flows.
- Developed operational dashboards and analytics to support day-to-day management decisions.

ENIGMA Home Tutions

- Created a two-sided marketplace connecting tutors and students with role-based access controls.
- Implemented secure onboarding flows and dashboards for both user types.

AI-Driven Educational Portal

- Developed AI-powered personalized study schedules to support individualized learning.
- Built a digital library and learner-tracking system to monitor progress and engagement.
